DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-9, 15-18, 22-23, 30-32 and 34, drawn to dispensing apparatus.

Group II, claim(s) 10-13, and 33, drawn to a position information capturing device.

Group III, claim(s) 14, drawn to a sample plate.

Group IV, claim(s) 19, drawn to a monitoring method.

Group V, claim(s) 20-21, 24-29 drawn to a dispensing method.

2. The inventions listed as Groups I, II, III, IV, and V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: JP 10-307088 is listed as an X reference and thus discloses the features of claim 1, 3-5, and therefore group I lacks a special technical feature and is known in the art. Similarly, JP 1-219535 and JP 6-66558 are listed as X references for claims 10, 11, 13 14 and 10-12 respectively, and therefore, Groups II and III lack special technical features. Additionally, JP 7-333231 is listed as an X reference for claims 24, 27 and 28, and therefore, group V lacks a special technical feature. Since Groups I, II, III and V lack special technical features, group IV does not share a special technical feature with any other group.

- a. Additionally, no technical feature present in group III is present in any other group. None of the other groups requires a "sample plate".

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

Art Unit: 1791

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
